***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. *Claims 3-11, 12-14 and 20-22* drawn to a system/method of operating a virtual jukebox using a vote process, classified in class **705/10**.
  - II. *Claims 16-19* drawn to a method for rendering audio files in a virtual jukebox system, classified in class **709/231**
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP ' 806.05(c)). In the instant case, the combination as claimed can be facilitates without a previously rendered audio file. The subcombination has separate utility such as not using a business method of the vote process to facilitate a virtual jukebox system/method.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

2. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
